

SJ- SDC

Single-jet water meter with dry dial

CE EN 14154

WRAS
APPROVED
PRODUCT

The **VuAqua SJ-SDC** is a single-jet mechanical water meter with dry type dial counter suitable for a variety of metering applications including domestic metering and small bore water volume measurement tasks available in sizes DN15 (1/2") to DN40 (1½").

Key Features

- Single-jet impellar meter type
- Compact design for most metering applications
- Approved: EN14154+A1+A2,OIML R-49: 2006(E)
- Dry dial (frost resistant) rotates 360°
- Meter body material is brass
- Drinking water approved: WRAS
- Shielded from Magnetic interference
- BSP fittings supplied (nuts, tails & washers)
- Maximum working pressure of 16 bar
- Maximum approved temperature of 30°C (T30)
- Pulse Output option: Vmax=24AC/DC, Imax=0.01A
- Tamper evident wire lock & seal

Dimensions

Size	DN15	DN15	DN15	DN15	DN15	DN20	DN25	DN32	DN40

*L1= the total length with connection and the gasket without compression.

Technical Data

Size	DN	DN15	DN20	DN25	DN32	DN40
R	Q3/Q1	R80 for Horizontal Installation				
Q4	m ³ /h	3.125	5	7.875	12.5	20
Q3	m ³ /h	2.5	4	6.3	10	16
Q2	l/h	50	80	126	200	320
Q1	l/h	31.25	50	70.75	125	200
Max. Reading	m ³	99999.9999				
Min. Reading	Litre	0.02				
Pressure Loss	ΔP	ΔP <63 at Q3				
Max. Pressure	Bar	16				
Max. Temperature	°C	30 (Max 50 Degrees is possible)				

Max. Permissible Error

From Q1 inclusive up to but excluding Q2 is $\pm 5\%$
 From Q2 inclusive up to and including Q4 is $\pm 2\%$

Pulse Output

Pulse output option available on all sizes.

Pulse Output Capacity (litres/pulse):
 10 standard or 100 on request
